District 4, one of California's 17 grape growing districts, is known to most as Napa Valley. Only 4% of all the grapes grown in California come from our state's famous District 4.

**Winemaking Notes:** This is our 4th vintage of the Red Blend. Hot on the heels of the well received and sold out 2014 District 4 Red Blend is this year's version. While I blended 4 varieties from within Napa Valley last year, this vintage is much heavier on the Cabernet Sauvignon and only has 3 varieties with the addition of Merlot and Syrah. I found this blend refined the tannins while still leaving you with a very drinkable wine today. The wine was aged in mostly French oak of which about 30% was new.
